

**Satin Baby Blanket  
by, Amanda Hommel**

© 2008

What inspired you to create the pattern? I was invited to a Baby Shower and wanted to give a personal gift. I looked over the Loom Knitting Primer and modified the pattern to fit the nursery colors, what I had, and little personal touches.

**Materials:**

Knitting Loom: Yellow, Large Gauge KK Loom 40 number of pegs. Yellow Knifty Knitter knitting loom was used in sample.

Yarn: 500 # yards, Chunky yarn weight Bernat Softee Chunky Ombres Yarn Harmony was used in sample.

Gauge: insert the number of stitches and rows worked on 4 x 4 inches swatch.

**Pattern Notes:** This pattern is very easy. You only need to know how to turn on a peg (slip stitch) and how to do a twisted stitch and purl stitch.

I bought a giant 5 lb bag of this from JoAnns when it was on sale. Then rolled it into two balls. Then I knitted with two strands at the same time – one because we're heading into summer, I wanted this blanket to be extra cushy for Baby to roll around on and second for when winter hit, it would also be extra warm for baby. I picked up a roll of brown satin ribbon and stranded it though on the third row in – alternating every 2 stitches, to every 3 stitches.

**Instructions:**

Knitted as a Flat Panel. Cast on in a twisted stitch.

Row 1: Slip first stitch, Knit 39

Row 2: Slip Stitch, Purl 39

Repeat Row 1 and 2 until blanket measures 22".

Bind off with Crotchet method.

Finishing: Count three rows in from edge, thread through the ribbon for 2 stitches, then skip one, then 3 stitches, then skip one.
